RSD 70.4 billion paid for agriculture

Minister of Agriculture Dragan Glamočić announced that RSD 70.4 billion have been paid for agriculture since the beginning of the year, which is almost 50% more than last year. The average yield of wheat is expected to be around six tons per hectare, which is at the level of last year's excellent yield, with variations from 3.5 to 12 tons in certain regions.

Đedović Handanović: Positive signal from USA for NIS

Minister of Mining and Energy Dubravka Đedović Handanović said that by extending the licenses until July 31 for NIS and MOL, the US administration showed a positive signal and enabled the continuation of negotiations on taking over the Russian stake in NIS. She said that this extension of 30 days is significantly longer than the previous one of two weeks, which speaks of the readiness of the US to enable the completion of the negotiations.

EU raises tariffs, Serbian steel exports down

The European Union, along with the additional reduction of quotas for duty-free imports of steel from third countries, also doubled the tariffs for exceeding the allowed quota. The new measures have been in effect since July 1 and are a serious blow to Serbian exports and the operations of the HBIS Smederevo ironworks. An additional Brussels financial levy increased tariffs on steel imports above the prescribed quota, from 25 to 50%.
