Production halted at industrial giant

HIP Petrohemija has halted production for a major overhaul worth EUR 15 million, which is expected to last until November 18. More than 1,000 people are involved in the work, with modernization focused on energy efficiency, plant reliability, and environmental safety.

Euronews

NIS seeks an extension of its US license

NIS is awaiting OFAC's response to a new request to extend its operating license, while the existing gas arrangement with Russia is also expiring. The company told Euronews that its filling stations are operating normally and that fuel supplies are stable, while the government has released 5,000 metric tons of Eurodiesel from reserves.

Digital price lists in stores

Since September 1, large retailers in Serbia have been required to publish digital price lists for certain product groups. The measure aims to increase market transparency and make price comparisons easier, which could strengthen competition among retailers and help consumers check promotions and discounts.
